EZ-GO ADAPTER CUP BUMPER INSTALLATION- INSTRUCTIONS FOR USE

The lock pin on the EZ-Go adapter cup protrudes beyond the adapter cup and can be damaged when impacted by other objects. This document describes how to install a protective bumper to the adapter cup for a boom installation and for a bed installation.
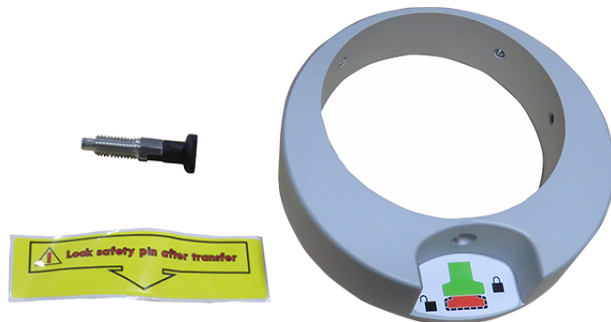

EZ-Go Bumper Kits

Part Numbers:

- **Boom adapter bumper kit:** 92-10-004

- **Bed adapter bumper kit:** 92-10-005

The EZ-Go bumper kits include:

- EZ-Go bumper
- Lock pin reminder sticker
- Lock pin

Required Tools

- 10mm wrench
- 3mm Allen wrench

Install the Bumper on Boom Adapter Cups

Make sure to install the bumper kit used for boom adapter cups, part number 92-10-004

1. Undock the EZ-Go from the boom mounted adapter cup (Figure 1).

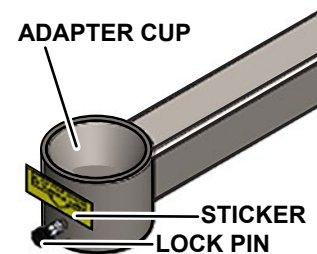

Figure 1.   Adapter Cup Components

2. Remove the sticker from the adapter cup.

3. Using a 10mm wrench, remove the lock pin from the adapter cup.

Figure 2.   Pin Removed from Adapter Cup

4. Slide the bumper (PN/ 92-10-004) down over the adapter cup (Figure 3).

Figure 3.   Bumper on the Adapter Cup

5. Align the bumper and adapter cup lock pin holes.

9. Dock the EZ-Go to the adapter cup.

Install the Bumper on Bed Adapter Cups

Make sure to install the bumper kit used for bed adapter cups, part number 92-10-005
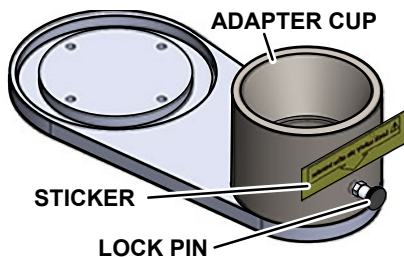

1. Undock the EZ-Go from the adapter cup.

Figure 6.   Adapter Cup Components

2. Remove the sticker from the adapter cup.

3. Using a 10mm wrench remove the lock pin from the adapter cup.

Figure 7.   Lock Pin Removed

4. Slide the bumper (P/N 92-10-005) down over the adapter cup.

NOTICE

Make sure the adapter cup is mounted on the bed adapter plate so the lock pin faces away from the plate as shown in Figure 6. If it is not, re-position the adapter cup so it is oriented as shown in Figure 6.
